This file features Physician Assistants. These Physician Assistants provide healthcare services under the supervision of physicians. They are formally trained to provide diagnostic, therapeutic, and preventive healthcare services, as delegated by a physician. Working as members of the healthcare team, they take medical histories, examine, and treat patients, order and interpret laboratory tests and x-rays, make diagnoses and prescribe medications. They also treat minor injuries by suturing, splinting, and casting. Physician Assistants record progress notes, instruct and counsel patients, and order or carry out therapy. In 47 states and the District of Columbia, physician assistants may prescribe medications.

Reach Physician Assistants for offers on Seminars, Subscriptions, Books, Recruitment, and any other medical related offer.

The Physician Assistants list is NCOA'd Quarterly.
